

### THE NELLIE TIER STORY

Nellie Tier is 100% New Zealand made and owned. We make luxurious natural skincare products founded on the age-old practices of phytotherapy and aromatherapy, utilizing the therapeutic properties of natural plants and their ability to heal, protect and nourish the skin.

The company's focus on products to care for families can be traced back to the brand names, Nellie Tier, names after Ann's grandmother, a young woman who settled in New Zealand in the early 1900's.

We only use the finest vegetables oils and botanical extracts combined with rich nut butters, pure flower hydrosols, vitamins, aloe vera and NZ Manuka honey. We perfume with aromatherapy-based blends of pure essential oils. To ensure maximum freshness our raw materials are sourced in small quantities and our product is hand-blended in small batches. Our skincare range is absolutely free from all harmful chemicals, and we do not test on animals.

We DO NOT use parabens, SLS mineral oils, volatile alcohols or petrochemicals. Our products are also free from artificial perfumes or color additives.

Our products are all truly natural, they are nature's greatest gift from us to you.
